

Score Table Workers

The score table runs our timing system and keeps score throughout the meet. Some training is required, but anyone interested can sign up to assist. We are always looking for parents who are willing to learn how to run the timing system.

The score table is located off the right corner of the pool and the scorers remain in contact with the Starter. They get the DQ slips and the timing slips as well as the order of finish cards in order to help determine the actual outcome of each heat of swimmers.
