

Starter / Referee

The Starter / Referee is the head official of the Meet. This is a job that requires training and time spent as a Stroke and Turn official. The Starter runs the meet and starts the races. They review the DQ slips as well. The Starter will hold a meeting before each meet to address the officials and the timers and hand out any equipment.

If we have enough people who hold this certification we can have both a starter and Referee, which helps the meet move along faster.
